EMPLOYMENT HISTORY

Tesco Rochdale — *Customer Assistant*

2018 - Present

- Collaborate effectively with a diverse team in a fast-paced environment, consistently demonstrating adaptability, resilience, and a desire to learn and improve.
- Demonstrate great interpersonal skills by handling customer enquiries with professionalism, empathy, and efficiency.
- I progressed from a junior role to being entrusted with increased responsibility, such as being a team leader who manages a department on multiple occasions.

EDUCATION

University of Huddersfield — *BSc Computer Science*

2020 - 2023

Graduated with a First-class degree, earning a final grade of 76%.

PORTFOLIO PROJECTS

Course Platform — *Full-Stack Application*

Built a fully functional course platform incorporating authentication, payments, and responsive layouts, using technologies such as Next.js, Prisma, Stripe, and NextAuth.

Seasonal Show Catalogue — *Front-End Application*

Developed a responsive front-end application with searching and pagination features, fetching JSON data from a public API, created using technologies such as Next.js, React.js, and TailwindCSS.

... links to the live sites and source code are available on my portfolio.

ACHIEVEMENTS

I created a daily guessing game web application, named RLEGuesser, which at its peak saw **10k** daily users playing it.
